Telegrams.

(By Havas Agency)

Rome, Feb. 15—The Premier, Signor di Riduni, read the programme of the new Cabinet in the Chamber of Deputies last night. He announced that one of his principal aims would be to effect an equilibrium of the budget by means of economies in all the departments of State. Referring to politics, he declared that the present Cabinet would maintain the triple alliance, but would also use its best endeavours to dissipate the want of confidence of France and to re-establish that harmony between the two countries which should never have been allowed to cease. These declarations were received with lively marks of approbation; parliament was then prorogued till the second of March.

New York, Feb. 15—General Sherman is dead.

London, Feb. 16—It is rumoured that Jack the Ripper has been arrested.

Rome, Feb. 16—It is currently, and with apparent truth, reported that Vice-Admiral Saint Bon will be appointed to the office of Minister of Marine, now vacant.

Rio de Janeiro, Feb. 16—Congress has passed the second reading of the Constitution Bill, subject to a number of amendments.

In every probability Marshal Deodoro da Fonseca will be elected President, and Sr. de Moraes Vice-President.

THE CHILIAN REVOLUTION.

Mendoza 16.—The following is the substance of reports gathered from travellers and letters just arrived:—The revolutionary forces reembarked from Pisagua, Iquique and Coquimbo, sailed out and landed on the 5th in Caleta de Junin, to the north of Pisagua, upon which they marched and which, with the assistance of the fleet, they took. The fleet then left to bombard Iquique. Col.-Robles at the head of the Government troops in Iquique was compelled to retire.

In the South General Urrutia has got together about 8,000 men, all well-armed and disciplined.

The official silence about Pisagua and Iquique is ominous: the fate of those two towns means the loss of the rich province of Tarapaca.

BREAKERS AHEAD!

The present state of affairs inspires many of our readers with a feeling of uneasiness. There is an impression that something is wrong, and that we are at any moment exposed to the danger of another political earthquake. The alarms on Saturday night are a repetition of what has occurred several times, and we may have to undergo many alarms of this description.

But these troubles will not last until the close of the century. The crisis will pass over. Politics will right themselves. The real danger is one that concerns the health of Buenos Ayres. We recommend to our readers the report of Mr. Seeber, just issued, in which the following passage occurs:—

"The smell in the Madero Docks is dreadful, and the workmen are decimated by typhus fever."

This is a matter of far greater importance than the price of gold or the merits of the candidates, Mr. B. or Mr. P. for the Presidency of the Republic.

Mr. Seeber has done a public service in pointing out the terrible consequences that may result from the Madero Docks. Buenos Ayres may be visited with a calamity such as that of 1871, in which half the population may be swept off.

If President Pellegrini takes the trouble to consult the files of our paper in 1887, he will find several articles of ours on this subject, ending with a vague reply from Mr. Madero's engineers to this effect:—

"Every precaution has been taken to which the STANDARD alludes."

Mr. Seeber's report shows what value may be attached to the assurance given by Mr. Madero's engineers.

THE ROMAY IRON MINE.

To-morrow the meeting of shareholders in this enterprise will take place. In order to throw as much light as possible on the business we published yesterday a letter from an engineer raising certain points that cannot fail to command the attention of the directors and shareholders. He asks firstly: Can an ore yielding 42 per cent of iron be considered a valuable or workable mineral?

The best answer to the above is a table which is before us, shewing the average product of ironstone in various parts of the world. The percentage of iron yield is as follows:—

	Per cent.
France	31
Germany	36
England	41
United States	43

Thus we see that if the yield of Romay mineral be 42 per cent it is a medium between those of England and the United States, and very much superior to the yield in Germany and France. This is a very important fact, and has doubtless been the chief cause impelling Messrs Schwartz and Messrs Chavannes to take so large a share in the enterprise.

As regards the supply of fuel the engineer in question says that a supply of 20 years is not enough to warrant the construction of furnaces and machinery. We are inclined to think that any such enterprise which does not return its capital twice over in 20 years is hardly worth going into. But it is very possible that the promoters of the Company may count on a longer supply.

The third objection turns on the supply of lime-stone, indispensable as a flux. We have an ineradicable impression that Argentina could supply limestone to the 5 "quarters" of the World. Time is too short to allow us to go into fireclay, firebricks and other things that are necessary as the engineer informs us.

We fully agree with him that the Romay iron-mine will neither cure the crisis nor improve the currency. We are convinced that you might have 500 Romay mines and furnaces at work without the wretched paper-dollar improving by a fraction. It is simply a question of closing the shinplaster banks.

But this does not prevent the actual enterprise from proving of high utility, and we feel some confidence when we see such men as Schwartz and Chavannes take it up, for they are the best judges of iron in South America.

On this subject we have received the following letter—

The letter of "Irony" in your issue of yesterday is worthy of reply, if such a discussion will encourage the exploitation of the mineral resources of the country.

I know nothing special about the Romay Iron Mines, but the proprietors need not be discouraged by what "Irony" says.

To reply to his queries seriatim—

1.—Iron ore yielding forty-eight or even forty-two per cent of metallic iron is undoubtedly a valuable and workable mineral. Few of the richest ores of Britain yield as much. "Irony" must not confound the yield of metallic iron with the percentages of peroxide and protoxide usually given to indicate the quality of ore.

2.—The fuel is stated to be abundant, and being timber, the smelting will be performed with charcoal, producing the highest quality of iron known; for instance the Swedish iron, which is smelted with charcoal.

3.—Limestone exists in many parts of the republic and, if sought for, will, no doubt, be found contiguous to the ore.

4.—Fireclay or ganister is invariably found along with the argilacious iron ores, and often with the hemalite ores, to which class, I understand, belongs the Romay ores; a small bore hole would soon set the matter at rest.

6.—The black loam of the country would make first-class pig beds, indeed, it can easily be manipulated to make clean castings direct from the furnace, but the real value of this project would be secured by running the metal direct with Bessemer converters, and turning out steel rails within twenty-four hours of charging the blast furnace.

I have, etc,
Smelter.

The following is Mr. Chavanne's report.—

B. Ayres, February 3rd.

Notwithstanding that the furnaces in which I was called on to perform the experiments were in no way adapted to the necessities of the case I succeeded fully in both operations viz: 1st.—The extraction of the metal. 2nd.—The casting of same. Net result 42 o/o. The smallest efforts, 5 grammes, gave 50 o/o, whilst the 500 experiments produced 48 o/o. This falling off in the handling of the larger quantity is to be explained simply by the fact that the smelting was not perfect, many particles of iron remaining behind, as proved by the sample of "escoria" which I herewith remit to the committee. To ascertain the exact proportions therein contained would necessitate its pulverization—a slow and troublesome operation that I did not care to undertake.

In conclusion I may assert that the ferruginous mineral (mineral titanifero) from the mines of Romay is easily smelted giving a return of at least 45 o/o. It were much to be desired that the metal were analysed in order to establish the amount of "titan" acid it contains, the darkness and extreme hardness of the "escorias" indicating a speciality.

Descriptive particulars

1st.—I filled with 250 kilos of mineral a furnace (horno cubilate) of m. 0.70 in diameter by 3 metres high. The mineral was—(chancado) and thrown on the furnace in four piles separated by layers of coke. The operation lasted 'eight hours' at a high temperature. On separating the mineral I perceived that the last layer was completely reduced, leaving a fine ferruginous deposit and some cast iron.

2nd—The casting. This operation was performed immediately after the casting of some ordinary pieces of machinery, having duly cleaned out the furnace "fore and aft" to ensure a fair and perfect trial. The mineral was thrown on the kiln in sacks of 50 kilos separated by layers of coke of 25 kilos. The temperature was raised to the highest, giving to the wind, produced by a centrifugal ventilator, a pressure of a m. 0.50.

The result two bars of iron superfine quality I herewith remit, as likewise a quantity of iron mixed with "escoria" which for want of powerful furnaces I have not been able to reduce properly, notwithstanding the aid of lime.

The gross weight of iron is 103 kilos, giving a return of 42 o/o. In conclusion I may assert that the Romay iron is easily handled, although my experiments were performed with very insufficient elements, and it only remains to be seen what kind of wrought iron it would produce. Future experiments will prove, I have no doubt, the correctness of my judgment, when I say that the Romay iron rivals the famous Swedish staple by reason of the presence of titan which it is impossible to completely eliminate.

Signed
Simon Chavanne.

LONDON LETTER.

CHORUS OF BANKERS.

(From our own Correspondent)

Jan. 15.

The *Financial News* understands that the difficulties of Messrs. J. E. & M. Clark, contractors for various South American railways, arise from a lock-up in the stocks of the various lines in course of construction by the firm, which the English and foreign bankers concerned did not take off their hands. The principal stocks so held by Messrs. Clark consist of Argentine North-Eastern debentures, Argentine Great Western, preferred and deferred, Venezuelan, preferred and deferred, and Buenos Ayres and Valparaiso Transandine stocks. The statements of the accounts of the firm show assets £434,000 and even at present depressed prices a surplus of £500,000; but the above mentioned securities are unfortunately not marketable at present.

* * *

The London bankers' views of the late Baring crisis are worth setting forth in a row. You will observe how they join in a general chorus of praise of what one of them, Mr. Donald Larnach, calls the splendid management of the Bank of England, but they do not quite agree as to the motives which caused the monied interest to come forward to guarantee the Baring fund. Some attribute it to financial patriotism, and others to the esteem in which the Messrs. Barings personally were held in London. It is gratifying to hear that the guarantors stand in no danger of loss, and that the liquidation is proceeding so satisfactorily that it is hoped that the partners of the firm will come out with a large surplus. Lord Salisbury will be disappointed, because when he was at the Bank of England he took the ground that if persons choose to speculate they must take the consequences. Lidderdale drew near to him and said, 'My lord, if so powerful a firm fails, there is not a bank in the country that will stand.'' Lord Salisbury then doffed his jaunty humour and went in boldly for out-door relief to Barings.

* * *

At the annual meeting of the Central Bank, the chairman, Sir Leopold Heath, said, he "congratulated all the shareholders, whether in business or not, on the escape from a misfortune with which Black Friday would have been a trivial affair. They could not praise too highly the action of the Governor of the Bank of England, but they should take to heart the lesson which the fall of a great house taught of 'hastening to grow rich.'" At the meeting of the Joint Stock Bank Mr. Donald Larnach said, "in November last the city was threatened with the breakdown of Baring Bros., the largest commercial house in the world and hitherto considered one of the very best in the world. But in consequence of the splendid management of the Bank of England, for which bankers could never be too thankful—first, in importing gold to the extent of five millions, and then taking upon themselves the liquidation of the house, a great catastrophe was averted."

Mr. Hankey, at the Consolidated Bank said, "it was a matter of great congratulation to the commercial world that the Governor of the Bank of England took the action he did." Mr. Deacon, of the Union Discount Company, alluded to the Bank of England as saving us from a national calamity which would have convulsed the commercial world.

* * *

The dissonant note which jars with this fine chorus of bankers comes from little outsiders such as the *Echo*, which says:—"The averting of a panic was certainly "one" for the public and "two" "for Barings." What we mean is this: How do the directors of the Baring estate now propose to get rid of the mass of depreciated Argentine and Uruguay paper which they hold? Is not the temptation held out to them of tacitly allowing the investing public or the most innocent and ignorant portion of it to quietly absorb the stocks which they the Baring directors could "gradually feed out?" Is it supposed by naming three years for the liquidation of the estate that the mere hand of time will justify such action and that during the interval a new race of investors will spring up who will suppose that the Argentine Republic is steadily pulling round? 'In vain is the net spread in sight of the bird.'' Much as we disapprove of the ethics of this argument, no man with any city experience can doubt its temporary expediency. We make no statement upon the matter and no imputations, but wish to be informed in what way the Baring estate is to convert into cash the millions of stock held? That Argentine Stocks are still far above their value is to our thinking proved. The Baring estate assisted by the leading banks have acted like the Thames Conservators. They have 'locked' the supply and trust that in time the demand will rise so far towards the required level that no unseemly noise need be made over the letting out of the water."

* * *

"Anglo Argentine" still lives on in the *World*. This week Argentine railways are his topic. As he tells you nothing that will be new to you I can spare you quotations. He seems to think that the great and natural waterways of the country are neglected by the railway system in the idea of centralising produce in the port of Buenos Ayres, which is not a real port and never can be. A. A. thinks that Rosario and La Plata will be ultimately the great ports of loading and discharge.

* * *

The bank reserves are 17 millions. Money ought to be and is at 2½ per cent, but the bank for its own wise reasons keeps the official minimum at 4 per cent. There is plenty of money. Trade is sound and the country is fairly prosperous. The continuance of severe weather checks the retail trade and the work of transport by land and water.

THE NEW ITALIAN CABINET.

The Marquis di Rudini, who has recast the Italian Cabinet, in which he figures as premier and Foreign Affairs Minister, is like Signor Crispi, a Sicilian. The marquis is a man of great decision and energy of character, and his cabinet is strictly conservative. To judge by his political programme recently published in the *Opinione* of Rome, he will pursue the same lines of policy as his predecessor, and it is probable the new Ministry will enjoy a very short lease of life.

The Marquis is 55 years of age. He began his political career in a rather noisy way. In 1866, being Mayor of Palermo, that city fell into the hands of a clique which distinguished itself by its incompetence. Rudini by his prudence and sangfroid saved the situation and soon became prefect of Palermo, in which capacity he displayed the utmost severity. Two years afterwards he was named prefect of Naples, and in October 1869 he became Minister of the Interior. He fell in November. His activity as deputy was extraordinary. He took his seat in the Right. In 1880 he and Nicotera—who figures in the new cabinet—became great friends. In 1885 he opposed Depretis and in the following year he attempted, but failed, to form a coalition of Crispi and Codronchi elements.

Like Crispi, he is no orator, but always speaks well to the point.

Baron Nicotera, Minister of the Interior, is a veteran of the Independence. He formed part of *Young Italy*, and in 1848, when 18 years of age, fought at Naples and Calabria. Being summoned to appear before the tribunals, he fled to Greece, but returned in 1849 to Rome to fight against the French. He subsequently led an adventurous kind of life in Piamonte. In 1857 he joined the ill-starred Sapri expedition which, despite his heroic bravery, fell into the hands of the Bourbons. He was tried and sentenced to death, but thanks to the timely intervention of the British Government the sentence was commuted to solitary confinement. He was sent to prison in Sicily where he remained until 1869, when he was released by Garibaldi. After many vicissitudes, he seceded from Mazzini and joined the monarchical party.

Elected to the Chamber, he often abandoned his post to join Garibaldi's expeditions and attained the rank of General.

In 1870 he proved himself a thorough statesman, and his activity astonished even his friends. He is a brilliant and facile orator, and is the possessor of a peculiarly melodious voice.

Signor Colombo, Minister of Finance, was for many years professor of natural philosophy in Milan. He is one of the most practical and intelligent men in the Chambers, where he enjoys great prestige, owing mainly to his unswerving principles which prevented him from bowing to the good fortune of Crispi. He possesses great power of exposition and is a very clear speaker. No better man could have been chosen for the financial department.

General Pelloux, minister of war, was born in Savoy, and is fifty-one years of age. When that province was ceded to France, he preferred remaining Italian. He distinguished himself in the campaigns of 1850-66-70. He enjoys an excellent reputation as a soldier and statesman.

Signor Luzzatti, minister of the Treasury, is the descendant of a Jewish family settled in Venice. He is forty-nine years of age. His fame extends throughout Europe. In 1867, while professor of law in the Padua University, he was sent to the Paris Exhibition where he shone by his profound knowledge of political economy. He is a man who believes very strongly in retrenchment, and his opinions always carry weight. He is well-known as a writer, being the author of many important works. His style is somewhat heavy, but his ideas are always good. He is a good speaker.

Signor Branca, Minister of Public Works was twice secretary of the Minister of Commerce and Agriculture and is considered a sound authority on economic questions. He began his career as a journalist; there is not a paper in Naples to which he has not contributed. His work "Le Credit et la Banque Internationale" is well known. He belongs to the Left. Signor Bruno Chimirri, Minister of Agriculture, is the youngest man in the new cabinet. He is a distinguished lawyer, and a statesman of considerable ability. He is a good speaker.

Signor Villari, Minister of Education, is a scientific writer of repute. His 'Meridional Letters" in 1867 brought him into notice, and his "New Anthology" just published, has created a very favourable impression. He is 63 years of age. He is a senator and professor in Florence.

Nacion.

LUXURY AT BUENOS AYRES.

(from the European Mail.)

Public attention has been so much directed of late to the unsatisfactory state of the money market in portions of South America that it is pleasant to know that one of the dwellers in Buenos Ayres has £5,000 to spend on perhaps "one of the most magnificent silver table services that have ever been made." Messrs. Elkington & Co. have to be congratulated on the beauty of their work. The service consists of some 210 large pieces and 50 dozen spoons and forks made to harmonise with it. These are stowed away in a charming cabinet consisting of many drawers, with a particular space for each article. The style of this service is of Louis XVI. period, characterised by graceful floral garlands looped in festoons, and the owner had many special ideas of his own carried out in its construction.

The silver is unburnished, and thus is unique in its way. On the top of the vegetable dishes are the various vegetables seen in relief, forming a sort of handle, and the covers for some of the larger dishes display lobsters, crayfish, &c. A plateau, 12 feet in length, which can be divided into three sections, is richly decorated with ornamental mouldings and laurel leaves in low relief. The centrepiece, a boat-shaped bowl on a pedestal, has well-modelled female figures at either end, the whole ornamented with rich "repousse" work. On either side are candelabra of seven lights each, and two fine rose-water dishes have gold rims, and are notable for the beauty of their workmanship.

The dessert knives are sabre-shaped with mother-of-pearl handles. The fish-eaters and the rest of the plate are in the Queen Anne style. There are soup tureens, vegetable dishes, punch bowls, many glass silver-mounted claret jugs, dishes with revolving covers, egg stands, and two or three asparagus dishes of the new form, namely, a sheet of metal perforated and bent into a half tube, so that the moisture from the vegetables percolates through. Asparagus tongs and grappe scissors there are in abundance, and I especially admire the salt cellars—the design in perforated silver, through which the blue glass shows. The shape is elliptical; the ornamentation of the best period of Louis XVI.

Graceful fruit stands have slender stems supporting glass dishes, and are flanked by many compotiers. The old-fashioned cruet-stands are supplemented by smaller stands of mustard, pepper, and salt; and there are plenty of scollop shells in silver for "hors d'œuvres," sweetmeats, or scaloping. The tea and coffee set on a silver tray accord well with the rest of the service, and there is a very handsome Tantalus, with spirit bottles, as well as meat dishes, cake dishes, fruit dishes and low, short candlesticks. Indeed there is nothing which you could possibly think of as associated with a table service that is not there displayed.

Railway Items.

The Board of Public Works have advised Government not to grant the petition of the Salta Government for the removal of the Carrillos Station on the Central Northern Railway. What might be done, the Board say, is to erect a simple station at kil 151, which would involve an outlay of $10,413 gold.

The altered plans for the bridge-work on the B. Blanca and North-Western have received the approval of the Board of Public Works.

The Venado Tuerto and La Carlota Section of the Santa Fe and Cordoba Great Southern has been officially inspected and found to be in a condition to be opened to traffic. The Engineers' Department have in consequence asked Government to name the day for the inauguration.

We learn on good authority that the employees of the late Northern Railway —450 in number—have received a month's notice.

The Railway Companies are beginning a vigorous policy of retrenchment.

The President of the N. R. Board has informed the Minister of the Interior that the Central Northern Co. have made the following appointments: road engineer, Emilio Montegaza: section engineer, Cesar Caceres; workshop engineer, Juan Kening; accountant, Mr. Springnet; station inspector, O. Garcia.

We take the following from the *Montevideo Times*:—

We understand that Sr. Serres has lodged a claim of 40,000 dollars gold damages against the Central Uruguay Railway Company for the injuries inflicted on his wife and family in the terrible accident which occurred on the level crossing at Calle Capurro a fortnight ago. The driver of the break has also made a separate claim for 10,000 dollars on his own part.

The Montevideo Tramways Company have obtained from the Municipal Board permission to unite their newly acquired line (that just bought from the Credito Real Uruguayo) with the Southern line. The points of junction are at Calle Durazno, corner of Convencion, and Calle Estanzuela, corner of Gaboto.

Sr. Jose Ziptel has applied for permission to make various extensions in the line for which a concession has already been applied. We have no information as to which concession this refers, but the extensions are to be placed in the Camino Suarez, Avenida 19 de Abril, Camino Reyes, and other parts in the neighbourhood of Paso Molino.

The *European Mail* says:—

"Perhaps the name of no other firm is more widely known throughout South America than that of Messrs. J. E. and M. Clark and Co., who have built some of the most prosperous railways on the continent—especially in the Argentine Republic—and much sympathy, we may be sure, will be extended to them in their present difficulties. The immediate cause of trouble has been their inability to dispose of the debentures of the Argentine North-Eastern Railway. It seems that the Deutsche Bank holds an option to take or leave these bonds, and they decided to leave them. Messrs. Clark, having been unable to find the money elsewhere, have been compelled to call a meeting of their creditors, and it is anticipated that a French syndicate will come to their assistance. The liabilities are estimated at £430,000, while the assests are said to be considerably over £1,000,000 sterling. Unfortunately, at the present time the securities of which the latter consist are unmarketable, owing to the financial crisis in the Argentine Republic.

EDITOR'S TABLE.

The revolutionary scare on Saturday night has been the talk of town ever since. President Pellegrini, General Roca and some other Ministers dined in the Jockey Club and had not left the place when the pow-wow began. General Roca at once went to the Policia and concerted measures with Chief Donovan. General Levalle darted about everywhere. General Ayala passed the night in the Staff Head Quarters, giving orders. General Garmendia held the Parque. Cavalry orderlies galloped furiously o'er the stony streets to all the barracks, in each of which there was a General. The sleeping soldiers were awakened, and "fall in silently" was the order whispered round by subs. and sergeants. The police were in twos and threes on their several beats. All this frightened the wits out of the masqueraders at the balls, public and private, and there was a general scamper for "dulce domum." The end of it all was, as usual, "*Nada*," and the Sabbath dawned on a tranquil city. On Sunday and last night the same military and police precautions were taken. There are three versions of the affair viz: That it was a plot to restore Juarez; that it was got up by the Union Civica; that it was an intended rising of the masses. All three stories are bosh. Some of the leading men of the Union Civica were the first to warn the Government. The most absurd rumours about arrests, state of siege etc. were afloat yesterday—all pure frightened moonshine.

We have much pleasure in saluting Mr. David A Shennan, Estancia Negrette, who arrived per R. M. S. Clyde from England. He has left town for a few days. His numerous friends will be glad to see him looking so well.

With reference to the leading article in our columns of yesterday on Argentine trade it will be seen that our editor reduced import values from currency to gold, showing a fall of 40 per cent in the import trade of 1890 from the previous year. This is strictly according to Mr. Latzina's official declaration (1890):—

"The valuations of imports are in paper dollars, and the amount of imports is in currency."

We draw attention to the weights for the handicaps at Hurlingham for Sunday next published in another column. Accept ances must be declared to-day.

Thousands of people visited the docks and South Bank on Sunday; those who went to see the Brown were disappointed, for she left for the Outer Roads at an early hour. The Chilian torpedo chasers may be very fine boats from a technical point of view, but they are not much to look at. Their artillery is small, and the only formidable feature is the spur at the bows that denotes the ram beneath the water.

An absurd rumor was floated yesterday that three leading Generals had been put under arrest; two of the gentlemen in question were seen to alight in front of the Bolsa at two p.m.

The Fronton Buenos Ayres was fairly filled on Sunday, when Portal and Irun again tried conclusions, victory inclining to the side of the younger player, in spite of the superb work put in by his antagonist. The game, however, was practically decided by the superiority of Pasagisto, Irun's "zaguero," over Portal's partner, Hurrioz; in fact, Portal may be said to have played single-handed against three opponents. Although defeated he gained the laurels of the day, and had some consolation in pulling off the two "quinielas."

We inform our readers that there is an opportunity of obtaining two fine quintas cheap at San Fernando. The way to go about it is to purchase a $10 ticket in the raffle of the said quintas to come off on St. Patrick's Day, March 17th, for the funds of the new church of the Passionist Fathers. It is a chance that is not often to be had these bad times.

Our evening colleague, *El Nacional*, has again changed editors. Mr. Alberu retires and Mr. Augustin de Vedia takes his place, with Mr. Mariano de Vedia as director. We welcome the coming and speed the parting guest.

There was a little more "go" and kick in Carnival on Sunday; but it was not a shadow of its former self, and everbody seemed glad yesterday that it was over.

There will be no Italian opera of the "primo cartello" order this year, but instead a lot of dramatic companies, including Sarah the Great, Novelli, and perhaps Cleary.

President Herrera went in for an unusually long and flowery Message on opening the B. O. Chambers on Sunday. It is all leather and prunella. No new Cabinet yet, and the matter is now subject for incessant joking in Montevideo.

A private bank in San Juan is said to have issued half a million of fresh notes of its own devising. Of course the manager may expect a line from Cato before the week is out.

We are quite unable to answer the question of T. P. as to the chance of employment on Railways in the Orient. It is a long and expensive journey; and if our correspondent has a bird in the hand here, we advise him to hold it fast rather than go look for another in the bushes of the East.

Valentine's Day seems to have gone out of fashion here like other good things. The girls complain that the sweet missives abhorred by London letter-carriers were few and far between on Saturday last.

Influenza is again with us. Several esteemed subscribers are sneezing as persistently as when a silver snuff box full of "Irish Blackguard" was in every fashionable pocket, long, long ago, when we were young and gay. By the way, many doctors say snuff is a capital mitigant of influenza.

Sr. Landelino Vasquez, a well-known broker in Montevideo, was the lucky mortal who secured the 25,000 dollars prize in Thursday's lottery. He finds that more profitable than "match-box" commissions on small sales of depreciated stock.

There is an "on dit" across the water that the Uruguayan navy is to be brought to the hammer; but indignant patriots declare it is only to be laid up in ordinary. It is such a very ordinary navy that, perhaps, the latter is the natural way to deal with it.

We had to fall back on smelling salts yesterday on learning that the immigration for the first fortnight of the month was only 1078 sou's. This is awful; all the more so since two thousand bodies sailed for Italy, never to return, last week; and twice that numbered are booked for this and next week.

Ill fares the land, to hast'ning ills a prey,
Where Cato legislates from day to day.

The medals won at the Paris Exhibition by Argentine exhibitors have arrived for distribution. This will rejoice the hearts of those worthy people who wish to go down to posterity as victors in the as yet unequalled Show.

It is really marvellous to what used things are now turned, especially by the thrifty Germans. At Munich there is a hospital which is entirely supported by the sale of old steel pen nibs collected from all parts of Germany. They are made into watch-springs, knives, razors, etc.

Those out of employment should take note that the National Labour Office wants six Jacks and Joans of all trades (the 'make yourself generally useful' genus); 20 day labourers for Mendoza; 202 farming families; 90 "peones"; 1 barber; 1 seamstress; 1 corset-maker; 1 clerk, 215 day labourers; 13 boys and girls; 1 watch maker; 5 hatters (not mad) 12 servants; 5 weavers; 1 joiner; 100 drapers assistants (!); 2 printers and 18 cobblers.

There are a lot of false fifties going about. Strange to say, the discovery was made owing to a gentleman paying for his dinner in a fashionable restaurant with some of the forged notes. No doubt he will be able to tell where he got them.

The *Montevideo Times* relates that a boy named Ludovico Rima was saved from drowning whilst bathing from the rocks near Playa Ramirez by a large Newfoundland dog, which dragged him out of the water by the skin of his neck just as he was sinking. He was landed unconscious, and the intelligent beast attracted help by his barks. That was a polite dog, as becomes his aristocratic breed. In such urgent cases drowning people are generally seized by the "scruff" of the neck.

A jerked beef agent has arrived here from Cuba to try and coax Cato to modify the export dues on the delicacy he represents. Can't be done till Congress meets. A direct line of steamers from here to Cuba will be started in May.

Our Flumicense friends intend to begin bull-fighting—and by electric light too, if you please—on Sunday next. In the very hottest of the crisis madness here Argentines never even thought of introducing the brutal diversion.

The La Plata Municipal Budget was voted in a gallop the other night by taking advantage of the absence of some Aldermen who opposed the crazy act of voting $800,000 outlay with only half the amount in income to meet it. Nevertheless this was voted, and nobody seems either to know or care where the deficit is to come from.

The Admiral Brown was ordered out of Dock One on Sunday morning at 7 o'clock, lest the mighty Plate should play her a trick by receding, and "leave her at eve on the beach all alone," like the barque which our mellifluous countryman Tom Moore "saw from the beach when the morning was shining." The idea of sending the Admiral Brown round to the West Coast to watch all the bad and bloody work going on there has been abandoned.

Shocking news for Lord Rothschild and his Committee, who pin their faith in a fall in the gold premium on large exports from this country. A bucolic contemporary says that two-thirds of the maize crop is lost. We hope this is merely an echo from maize speculating quarters; nevertheless, it is a painful fact that in several districts maize is being sold for fuel.

The first Municipal elections under the new Law ought to come off next Sunday, but the old leaven is still at work, and the odds are ten to one that the loaf will be spoiled. It is said that many members of the "mesas" are disqualified by law; whilst "suplentes" by the dozen are either not registered, absent, or laid up in bed with all sorts of queer complaints, from gout to glanders.

The Lord Mayor is trying to do the good landlord; but his ideas of rent reduction would not promote the comfort of his existence if he were fortunate enough to own an estate in green Erin. He has reduced the rent of the Workmen's Houses belonging to the Municipality by ten per cent.

An agency has been going for some time in Paris which undertakes at a few minutes' notice to supply anyone who objects to the unlucky number of thirteen to dinner with a fourteenth guest, male or female, who will be all that fashionable society exacts in the way of manners and appearance.

The editor of one of the so-called comic papers is in prison, for going what the Chief of Police considers a trifle too far in the suggestions of his political caricatures.

A Cordoba paper says that the Bomberos of that learned city have been sent down to assist their "tocayos" here in putting out fires. Another paper says they haven't.

A gentleman who on Saturday lost a cheque on the new Italian Bank for a large amount and the gentleman who found it met at the advertisement counter of the *Prensa*, whither they had rushed to advertise the interesting bit of paper. The loser, with an effusion worthy of the occasion, offered the finder his house and everything he has or may have in future in this weary, wicked and ungrateful world.

The eternal "conflicto municipal" in Rosario is not settled yet. Municipalities, legal or illegal, are as hard to get rid of as a summer cold in the head, or an unwelcome visitor who drops in just at dinner-time, determined to share that meal with you whether you like it or not.

This evening Frank Brown treats his patrons to an entire change of programme, some of the novelties being calculated to create hair-blanching excitement. The popular Frank himself re-appears, after having been absent from the arena for a few days.

The *Union Civica* of Santa Fe is in legal trouble for speaking of Minister Leiva and thirty thousand dollars in the same breath.

In clause 5 of "Irony's" letter on the Romay iron mine, published on Sunday, the first line should have read "good *sand* in which to mould beds;" not "good land," etc. The printer was not thinking of a Centro Agricola while he was at work; that is clear, or he would not have made the mistake. "Irony," tells us that the iron entered his soul when he perceived the blunder.

Postage stamps are the latest medium for fleecing the public. Some shady dealers in the indispensable article go so far as to charge seven cents for a five cent stamp, a percentage of profit that even Shylock would blush to exact. People pay it, rather than tramp to the General Post Office.

The Italian Opera Company which was playing at the National Theatre just before Carnival reopens there this evening with Carmen, with the hitherto invisible tenor in the role of Don Jose. The Company has been greatly strengthened and should command the patronage of all music-lovers.

Another editorial duel to come off was spoken of yesterday. The weather and the times are equally hot and disagreeable.

The architect who has the third and last section of the Government House in hand says it will be finished in four months. It has already cost 350,000 dollars; an unpleasantly stiff sum in the middle of a raging crisis.

Very few flowers, especially the new sorts, are sweet scented. There are now cultivated throughout Europe over 4000 different kinds of flowers, of which barely 10 per cent have any odour.

PARAGUAY.

Mr. Editor,

In reference to the letter on Paraguay by H. Z Tillotson I wish to say I know noth

THEATRES

English Literary Society.

A special general meeting will be held at the Society's rooms, 732 Cuyo, on Wednesday, February 18, 1891, at 8 p.m precisely,

Business.

To consider the advisibility of removing the funds of the Society from their present investment in Cedulas, and placing them in shares of the Western Railway Company of Buenos Ayres.

The Rev. Pelham Ogle will move the following resolutions, of which he has given due notice:—

That rules 28 and 29 be hereby rescinded, and that in place thereof the following be substituted:—

Rule 28. The Committee are hereby empowered to permit such games to be played in the Society's Rooms as they shall from time to time lay down with power to rescind or totally withdraw the same or any of them when in their uncontrolled discretion they shall think fit.

Rule 29. Such refreshments may be served in the Society's rooms as may be expressly permitted by the Committee, who shall have full power from time to time to regulate the mode and manner of serving the same, as also to limit that portion of the Society's premises on which the same can be consumed, and to arrange all other matters in anywise connected with the same.

By Order of
the Committee.
Buenos Ayres, February 7, 1891.

THE
Pierce Artesian Well Co.
of New York
Has exclusive control of the patents obtained by CHARLES D. PIERCE, by which wells are drilled with a rapidity unattained by any other system.
The Company has recently received from its factory, the celebrated PIERCE IRON WORKS, New York, several powerful steam well drilling machines and a quantity of extra heavy drive pipe specially made for the Plate. No pipe of this quality has ever been imported here before. It will not "telescope" nor break.
These machines are in charge of experienced North American well engineers specially sent by the Co.
Contracts taken for wells from 30 to 1,000 metres depth, for water, or petroleum; water supply for Railways, Factories, Estancias, etc; soundings for minerals, etc etc.

Compania Primitiba
DE
Gas de Buenos Aires.

Rebaja de Precios.

En virtud de las reformas realizadas en la fabrica de esta compañia, que le permiten elaborar una cantidad mucho mayor de gas de la que antes producia, el directorio ha resuelto hasta nuevo aviso fijar el precio del gas del modo siguiente que regira desde el 1° de Febrero proximo.

Por metro cubico $0.226.

Por impuesto municipal $0.004—Son 0.23 pesos el metro cubico.

Para consumidores de cierta importancia haremos un descuento en relacion al consumo.

No duda el directorio que dada la calidad del gas que fabrica esta compañia, cuya intensidad de luz es siempre superior al tipo oficial de 20 velas, el publico se penetrara de la gran ventaja que tiene en nuestro.

Si hasta ahora hemos cobrado el precio de 25 centavos por metro cubico, es porque nuestros elementos de produccion no nos permitian dar abasto a todos los pedidos; hoy, a pesar de las mas circunstancias por el alto precio del oro, lo expenderemos a 23 centavos incluso en este precio el impuesto municipal, contando con que el aumento de consumo nos compensara la rebaja que hacemos en favor de nuestros numerosos clientes

THE DIPPING SEASON.

Under the above heading, the following appears in a recent exchange:—

"Speaking of Dips themselves, perhaps the most significant feature in their "History is the way that the Old fashioned have been superseded by the more "Modern and Scientific preparations. As Tobacco gave place to the various "Fluids" "and these again to the "Powders" so we find to-day these latter retiring before the "new Paste Dips. Of the many recent experiments we have witnessed in England and "the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping "a breast of the times."

"The advantages of the Paste over the "Powders" are many:—

"It does not make the wool dry and harsh, but leaves it soft and silky, giving a "healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to "prepare there, being no waste nor loose "Powders," to fly about.

"As it is prepared with Carbolic it is lighter than the "Powders" and does not "so readily settle to the bottom, and for the same reason it is not injurious to the "hands. It goes in less space and is a more concentrated form than the "Powders," "thus effecting an economy in transport and labour. It costs less, and will mix with "any kind of water. In a word, it is the "Powders," cleared of their many inherent "defects, with their curative properties and good qualities preserved and increased. "Until the manufacturers make some better discovery

"HAYWARD'S PASTE DIP
IS
"THE DIP OF THE CENTURY."

Sold in cases to make 800 and 1,600 English gallons.
Samples will be forwarded gratis to any part of the Camp, and if desired, the cure undertaken by practical dippers, free of charge.

EXCHANGE RATES—

England	13 15/16d.
France	1.46¼ fcs.
Germany	1.18¼ marks
Belgium	1.46¼ fcs.
Gold equivalent	341.00

Monday, February 16th.

The air was impregnated to-day with the alarm and distrust again excited by the rumours of conspiracy and arrests, and although at a late hour it was reported that the matter was greatly exaggerated, gold prices swelled perceptibly notwithstanding. Gold opened in the morning at 351 and stood at 1.30 p.m. at 351.50 between buyers and sellers. Then the news spread that over seventy disaffected politicians, including three generals, had been arrested, and immediately the rate shot up to 356, reacting from that point to 353.50, at which it closed. Stocks, of course, moved in sympathy, National Bank shares dropping to 72.50, Constructors to 11 and Catalinas to 15.80, though Cedulas kept firm and were in good demand, forming the only exception. As for National Bank shares, holders are now thoroughly alarmed, and such was the rush to sell to-day that 72 (sellers) was at one time the quotation, though eventually it recovered and closed at 77. Nobody can say, however, what the quotation will be to morrow. The impression caused in the market by the balance sheet has been downright disappointing and now that holders are beginning to realise the severe losses the bank has suffered and its critical situation, it may be that the present fall will be prolonged. Such is the opinion on 'Change, and it is said that unless there is a rapid recovery in quotations many "cauciones" will have to be liquidated at the end of the month.

The following is a summary of operations effected this afternoon during the first ring:—

Feb. 17th P 120,000 at 45.80-46

Dr. Garay has returned to his post as Civil Judge of First Instance after spending a fortnight in Mar del Plata.

The Customs' receipts to day amounted to $8,765.88 for imports and $9,504.55 for exports.

A fair amount af exchange was passed to-day for the Royal packet Clyde which clears on Wednesday. The rates quoted are 48¼-49d; 5.11-13 francs and 4.15 marks. In paper little or nothing can be done, due to the fluctuations in gold.

Montevidean advices announce that the lawsuit brought by the firm of Samuel B. Hale and Co., seeking to have the sale of the Tramway Oriental annulled, has been decided against them by the Court. It is not known yet whether there will be an appeal.

Discounts continue very difficult, first-class signatures being only done at 8½ to 9 per cent.

The manager of the Custom House has sent to the Caja de Conversion 7185 dols., corresponding to the proportion of the returns stipulated by law to be applied to gradual withdrawal of the currency. The amount to be withdrawn is fixed at 15 millions per annum, and as the 7185 dols. correspond to the 12th, 13th and 14th inst., at this rate of progression it will take slightly over 15 years to get in the 15 millions specified. Of course there are other resources to count upon in this emergency, and it is to be hoped that they will not prove such a slender reed as the proportion of the Customs' dues assigned.

Mr. E. Castro has laid before the Government a project for the construction of large cellars under the Plaza Victoria without altering in the slightest its actual appearance. The cellars would be used for commercial purposes, and at the end of 60 years become the property of the Government; the Government, moreover, enjoying during the whole term of the concession 8 per cent of the profits. The Public Works Board, having studied the proposal, consider it an advantageous one in every sense and recommend its acceptance. It is understood that the construction, lighting and ventilation are all for account of the concessionaires.

Nothing further was known to day about the loan or the City Improvement business, but it is the general impression that even though the latter be not arranged, the loan will be done, as they are not so inseparably linked as many supposed. Dr. Plaza has,

The following is a summary of the business effected in stocks during the second ring:—

Feb. 25th N 10,000 at 42.90
Feb. 17th O 17,500 at 43
Feb. 17th P 50,000 at 46-46.50

The president of the Board of La Estrella Insurance Co. had laid before the Government the revised statutes for approvals.

Santa Fe advices announce that the new directors of the Santa Fe Provincial Bank have come to an understanding with Mr. Terrosa, the Minister of Finance, and taken possession of their posts. It will be remembered that, owing to the stipulations or exactions of the Government, the board refused for a long time to have any part or hand in the management of the institution, but as the Government has now given way and the board gets carte blanche, it is hoped that matters will soon be placed on a sound footing. The board will begin, we believe, by suppressing several branches which have never responded to expectations.

The s.s. Duchessa de Genova left Genoa on the 14th inst. for the Plate with 225 passengers and 1000 tons cargo.

The s.s. G. B. Lavarello left Genoa for the Plate on the 12th inst. with 700 passengers and full cargo.

Our well-informed colleague, *El Argentino*, commenting in its commercial column on the shipment of £2,000,000 in Cedulas for Europe, attributes it to the withdrawal of foreign capital from the Plate. The high price of gold rendering the purchase of the latter disadvantageous, the capitalists have purchased Cedulas instead, and make a handsome profit by selling them in Europe. Due to this, Cedulas continue to show a bold front in the market, when all the other stocks are decidedly shaky.

During the past week the demand for salted potro hides for the Hamburgh market has been most pronounced, and it is calculated that over 6000 have been sold at the high price of $3.30 gold each. The article is scarce in the market, and lots for sale are easily placed.

With regard to wheat, brokers report that whilst barletta, Saldome, French and Russian have changed hands for consumption at high prices at 10.50 to 11.50 mjn per 100 kilos, no less than 25,000 bags having been sold, of which the Molino del Oeste was the principal purchaser, the candeal wheat has also risen sensibly, the "fideo" makers having bought heavily. A lot of 500 bags from the West has changed hands at 13 mjn the 100 kilos, and a further lot of 600 bags from Marcos Paz fetched as much as 13.50 mjn. These prices are much commented on by brokers.

Maize is reported very scarce, which has caused such a rise in prices that 8 mjn per 100 kilos is paid, for export, placed in the Riachuelo or Central Produce Market, and 8.05 to 8.10 for lots for consumption. The distilleries refuse to pay over 7.50 mjn, and those establishments which have not laid in a large stock will be compelled to stop working. Flour also shows a marked rise in price, and even fodder for animals is so dear that the tramway companies now feed their horses on bran.

Mr. Risso-Patron has sold the property Calle Santa-Fe 3735 for 19,700 mjn. The purchaser was Mr. A. Torre.

We understand, on good authority, that the fine Lezama estancia, near Chascomus, has been sold to English capitalists for £35,000, say 600,000 mjn more or less. The land comprises an area of 2½ leagues of the best property in the province, and the purchase includes 5000 head of horned cattle and 17,000 sheep. Mr. Richard L. Trotman, we hear, acted as broker in the transaction. The names of the buyers are kept under reserve.

With regard to the so-called guarantee deposits effected by foreign insurance companies, it is interesting to note that the Royal has deposited no less than $100,000 mjn.

The following telegram has been received from London giving the quotations of Argentine stocks:—

February 17th 100 at 32½

A decree has been issued by the La Plata Government changing the name of the Partido del Vecino to Partido General Guido and fixing the chief town at the "centro agricola" Guillermo Rawson, the property of Mr. Claudio Martin.

Yesterday the last batch of shinplasters to be put in circulation was given out by the Caja de Conversion, so that now, instead of swelling, the emission will begin to decrease, according as the banks go paying their amortizations.

The announcement made a few days ago that Baron Hirsch's representatives had concluded the purchase of a large tract of land in the province of Santiago for the Jewish colony turns out to be premature, as Dr. Loewenthal, one of the representatives, asserts that no such purchase has been made, or, indeed, can be made until the plans and estimates are compared with those drawn up by the Committee which went to the United States. Dr. Loewenthal leaves shortly for Europe.

The Administrator of "Contribucion Directa" has intervened in the following sales of property:—

Calle Bollini No. 274, 9x30 for 9,000 mjn.
Calles Presidente and Herrera, 16x39 for 15,000 mjn.
Avenida Montes de Oca, 26x48 for 11,960 mjn.
Calle Cochabamba No. 1252, 12x18 for 10,000 mjn.
Calles Maipu and Parque No. 506, 6x28 for 100,000 mjn.
Calle Billinghurst No. 1447, 8x25 for 7900 mjn.
Also various other properties sold for 136,889 mjn.

The following sailings of ocean steamers are announced for this month:—

17—Galicia for Liverpool
18—Iberia for the Pacific
20—Tijuca for Hamburg
20—Manilla for Genoa

Wolseley Sheep Shearing Machine Company, limited.
Cabaña del Rincon,
Propiedad del Señor Don Tomas Bell,
Estacion Pereira, 18th Sept. 1890.
Messrs. Agar Cross & Co.

Dear Sirs,

I have great pleasure in reporting favoxrably of your "Wolseley Sheep Shearing Machine," Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.

I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best patents I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly,
WILLIAM RIDDICK.

Keating's Cough Lozenges.
Keating's Cough Lozenges.
Keating's Cough Lozenges.
Keating's Cough Lozenges.

"94, Commercial Road, Peckham, July 12, 1889.

"Dear Sir,—I am a poor hand at expressing my feelings on paper, but I should like to thank you, for your lozenges have done wonders for me in relieving my terrible cough, Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive and getting on) well performed at St. Bartholomew's Hospital for abduct, or paralysis of the vocal chords, no one could possibly have had a more violent cough; indeed it was so bad at times that it quite exhausted me. The mucus also, which was very copious and hard has been softened, and I have been able to get rid of it without difficulty,—I am, sirs, yours truly,

"Mr. T. Keating," "J. HILL.

Medical Note.
The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lozenges is understated. The operation was a specially severe one, and was performed by the specialist, Dr. H. T. Butlin, of St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these Lozenges. So successful are they that one affords immediate benefit, although from the nature of the case the throat irritation is intense. Mr. Hill kindly allows any reference to be made to him.

WANTED—A situation as governess to two or three young children by a young English lady at liberty by the end of February. Address F R, Casilla de Correo 1244. n257 12 19

Chalet
De material en Palermo. Ocasion unica. Se vende un lindo y bien construido chalet en el mismo Parque 3 de Febrero, Avenida Alvear No. 2074. Es apropiado como para familia, reuniendo todas las comodidades deseables. Tiene jardin, huerta, caballeriza, cochera, gas, aguas corrientes, campanillas electricas, subsuelos habitables, etc, etc, y nueve hindas piezas; el terreno mide 20 varas de frente por 90 de fondo todo cercado de pared en cal. No hay necesidad de hacer resaltar la importancia real del paraje, pues nadie ignora que Palermo es el rendezvous y paseo predilecto de la poblacion en general, y particularmente de la alta sociedad. Se vende por tener que retirarse su propietario a Europa por asuntos de familia. Ocurrir Avenida Alvear 2074. n250 12 19

Irish Setters
For sale, six most beautiful pure bred Irish setter pups from first-class field dogs. Dirigirse pedidos por carta Casilla 771. n238 12 19

A French Young Man who speaks and writes English fluently, wants a situation as a clerk in a commercial house. Three years' experience in tissues. Good references. Please write J A D B, this office. n271 13 20

SE ALQUILA para negocio un buen local con comodidad para familia. Para verlo Buen Orden 630 y tratar Piedras 252. n277 13 17

Clerks Wanted

WANTED a respectable woman as good general serv

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by Stallions, Bulls, etc., imported direct from England by the owner; it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F. C. a La Plata from whence animals can be despatched to any part of the Republic

Animales of the same breeds are obtainable at thee Estancia La Favorita. Apply to the Mayordomo, Almacen La Suiza, Carrera Tandil á Necochea, or to Hotel Dhees, Tandil. Also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina. F.C.O.S. Rosario.

Only Address in Buenos Ayres — Venezuela 1062.

Dr. J. Collis Browne's CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE!

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Cout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Januar 5 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sepsems, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of he Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

Sole Manufacturer—J T DAVENPORT, 33 Great Russell Street, Bloomsbury, London. 12 f3 a3 1pw
